JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

SEC. 13. *Penalty; forfeiture of permit.*—The conviction of any person, association of persons, firm, or corporation for a failure to comply with or for a violation of any part of the provisions of this ordinance shall immediately and automatically work a forfeiture of such permit granted to him, them, or it. And if such conviction be of any agent, servant, or employee of such person, association of persons, firm, or corporation, then, nevertheless, such permit granted to him, them, or it shall, in like manner, be forfeited.

SEC. 14. *Rules and regulations.*—The board of health may make all reasonable rules and regulations pertaining to the granting of the permits herein provided for and the conditions under which such permits may be exercised.

Milk and Cream—Cooling and Bottling. (Ord. June 15, 1916.)

That subdivision 19, of section 61, of chapter 111, of ordinance No. 99, passed and approved December 20, 1915, be amended so as to read as follows:

19. *Milk house, bottling and cooling.*—Immediately after milking, all milk shall be removed from the stable into a milk room, thoroughly screened from flies and other insects, and there cooled or separated if either thereof is to be done upon the premises, and put into perfectly clean bottles or cans. The milk house or milk room shall be located at least 15 feet from any other building and at all times shall be kept in a clean and sanitary condition. Dairymen and other milk and cream dealers and handlers using both bottles and cans in handling and delivering milk and cream shall not under any circumstances fill bottles while on their delivery route.

All milk intended for sale, delivery, or use within the limits of this city, as grade "A" milk or grade "B" milk, immediately upon being drawn from the cow, and all cream intended for such sale, delivery, or use, as grade "A" or grade "B" cream, immediately upon its separation from the milk, shall be cooled to a temperature of not more than 60° F., nor below the freezing point, and thereafter be kept at such temperature continuously until delivery to the consumer (except pasteurized milk or cream during the process of pasteurizing only), and the actual sale or delivery of milk or cream within the limits of this city as grade "A" milk or cream or grade "B" milk or cream shall be conclusive proof that such milk or cream was so intended for such sale, delivery, or use.
